Fluidfit

Naturally high-quality,
improved by technology.

Fitting for Potable Water, Beverages & Drink Dispense

Why Fluidfit Stands Out

Fluidfit sets itself apart by delivering innovative solutions
and proven reliability centered on total customer satisfaction.

✓ Reliable Products

- Each product is inspected with 100% quality control to meet the highest standards
- Certified by NSF 51/61, WRAS, KTW, and ICIM, underscoring our commitment to excellence

✓ Easy Operation without Tools

- Engineered for ease of use, requiring no tools for simple, efficient operation

✓ Pure and Safe

- Designed with FDA-approved EPDM O-rings and premium materials, ideal for water, beverage, and drink dispensing applications, ensuring safe and reliable use

✓ Eco-friendly

- Created using eco-friendly materials and processes to minimize our environmental footprint

Applications and Features

- **Versatile performance** for water, food, and air, with specialized compatibility for gases, vacuum, and liquids.
- Instant single-action connection and release - engineered to **minimize installation time and operational costs**
- Fluidfit products are made of **NSF approved non-toxic materials**
- Various uses depending on the user's environment and application

Specifications

- Fluidfit products are designed for water, food and air contact
- **Fluid type** : Water, Beverages
- **Applicable Tube** : Polyethylene(PE), Polyamide(PA), Polyurethane(PU)

FLUIDFIT Products

| Color | **BK** Black **WT** White **GY** Gray

POM | Fittings, Valves and etc.

Metric Fittings **BK** **WT**

Inch Fittings **GY**

Large Size Fittings **BK**

Push-in Fittings : Metric Size Fittings / Inch Size Fittings / Swivel type Fittings / Large Size Fittings

- **One-touch type** enabling easy to attach and detach, safe use
- **Cork-type** allowing excellent sealing function and high durability against leakage
- Made of **FDA-approved** material ensuring its safety, certified as **NSF 51, 61**
- Food and beverage fittings with oval sleeves

Check Valves

BK **WT** **GY**

- Non-return valve that allows fluid to flow only in one direction
- Usable for water, food and beverage
- Compact size for convenient use in narrow spaces
- Easy to install and convenient to use

Flow Control Valves

BK **GY**

- Valve that discharges constant flow by controlling small flow rate
- Usable for water, food and beverage
- Flow rate increase / decrease controller available under any spatial changes
- Securable stability under any temperature changes

Ball Valves

BK **WT** **GY**

- Valve to open and close the supply of compressed air and water
- Usable for air and water, convenient for use in confined spaced
- Adaptive fit for various hose sizes, ensuring a secure connection and consistent flow area

Filter Strainers

BK **GY**

- Usable for water, food and beverage
- Filter out fine impurities with stainless steel filter net
- Easy filter installation and replacement

STEELFIT

GY

- Nut and holder with two O-rings provide a stronger seal
- Allowing the use of stainless pipe or similar tube

Cartridges

BK **WT** **GY**

- Effectively inserting and using a counterpart with a cavity in the counterpart
- Composed of half & full cartridges made of acetal and brass materials

Accessories

- Usable for water, food and beverage
- Made of FDA-approved material ensuring its safety, certified as NSF 51, 61

PP | Valves

Ball Valves

WT

- More chemically resistant than acetal
- Used in water supply feed line, Beverage dispenser

PPSU | Fittings

Fittings

WT

- High-performance solution for high-temp/high-pressure lines. Ideal for hygienic applications in Food, Medical, and Semiconductor industries.
- Stable up to 140°C with superior chemical resistance. Ensures a perfect seal via effortless, one-touch assembly.

PE | Tubes

Tubes

- Water purifier, coffee machine, food and beverage hose
- Available for various range of temperatures and pressures
- Excellent chemical durability
- Compliance with FDA standards

Selection Guide for F&B Fitting Materials

	POM (Polyoxymethylene)	PP (Polypropylene)	PPSU (Polyphenylsulfone)
Product			
Operating Temperature (Continuous Use Standards)	-20~98°C * Certified Temp: 0°C ~ 65°C	0~60°C	-20~140°C
Operating Pressure (May vary depending on the tube type and temperature)	-0.95bar ~ 20bar	0bar ~ 10bar	-0.95bar ~ 20bar
Applications	- Residential & Commercial Purifiers - Cold & Ambient Water Lines - RO(Reverse Osmosis) Systems - Food & Beverage Equipment Feed Line	- F&B Equipment Internal Piping - Washable Sections in Food Facilities - Beverage & Dairy Transfer Systems - Auxiliary Water Lines for F&B Processing	- Hot Water Purifiers - Coffee & Tea Extraction Equipment - Hot Water Lines for Beverage Heating - F&B Equipment with High-Temp Cleaning
O-Ring / Body	EPDM, NBR / POM	EPDM, NBR / PP	FKM / SUS316L / PPSU
Applicable Certifications	NSF51, NSF61, WRAS, ICIM, ACS, KTW-BWGL	NSF51, NSF61	NSF169

	PVDF (Polyvinylidene Fluoride)	SUS316L (316L Stainless Steel)	POK (Polyketone)
Product	 Coming soon	 Coming soon	 Coming soon
Operating Temperature (Continuous Use Standards)	-20~120°C	-15~220°C	0~98°C
Operating Pressure (May vary depending on the tube type and temperature)	-0.95bar ~ 20bar	-0.95bar ~ 15bar	-0.95bar ~ 20bar
Applications	- Semiconductor & Display Auxiliary Processes - Battery & Secondary Cell Manufacturing - Chemical Industry	- F&B Plant Internal Piping - Pharmaceutical & Bio F&B Processes - High-Temp & High-Pressure Drinking Water Lines - CIP / SIP Integrated Sections	- Premium Water Purifiers - Direct-Connection Drinking Water Systems - Chlorinated Water Lines (Long-term Use)
O-Ring / Body	FKM / SUS316L / PVDF	FKM / SUS316L	EPDM, FKM / POK
Applicable Certifications	NSF169	FDA	NSF51, NSF61

✳ **Note:** Bodies and O-rings available in alternative materials upon request.

Caution

- **Intended Use:** Use for water, food, and beverage applications only. Contact us for other chemicals or media.
- **No Modification:** Do not disassemble or modify products. This voids the warranty and may cause leaks or failure.
- **Stress Avoidance:** Prevent excessive stress from rotation, twisting, or shock to avoid product damage.
- **Temperature Limit:** Do not exceed 80°C. Higher temperatures may cause malfunction or failure.
- **Proper Sealing:** Use Teflon tape only for threaded fittings. Do not use pipe glue or liquid sealants.
- **Pressure Safety:** Never pull tubing or press the collet while the line is pressurized.
- **Locking Clips:** Always use locking clips to prevent unintended separation.
- **Torque Spec:** Follow recommended torque data. Over-torquing may cause damage or leaks.
- **Disassembly:** Verify that line pressure is completely removed before disconnecting tubes.
- **Product Notice:** Specifications may change without notice for improvement; actual products may vary from images.

Technical information

Structural Diagram

Applications

- Versatile performance for water, food, and air, with specialized compatibility for gases, vacuum, and liquids
- Fluidfit products are made of NSF approved non-toxic materials
- Various uses depending on the user's environment and application

Features

- One-touch type enabling easy to attach and detach, safe use
- Cork-type allowing excellent sealing function and high durability against leakage
- Food and beverage fittings with oval sleeves

Color Codes

BK Black **GY** Gray **WT** White

Specifications

- **Material** : POM, SUS301, EPDM
- **Temperature Range** : -20 °C ~ 98 °C
- **Operating Pressure** : Refer to the table below
- **Applicable Fluids** : Water, Food & Beverage

Φ \ °C	-20°C	1°C	70°C	98°C
4mm ~ 8mm (5/32" ~ 5/16")	8 Bar (With dry air only)	20 Bar	16 Bar	10 Bar
10mm (3/8")		16 Bar	14 Bar	10 Bar
12mm ~ 22mm (1/2" ~ 5/8")		14 Bar	8 Bar	6 Bar

- ⚠ **Caution**
- **Certified Temp**: 0°C ~ 65°C (NSF Standard) [Warranty valid only within this range]
 - **Ambient Temperature Exposure**: Up to 98°C [Fluid temp must remain below 65°C]
 - **Operational Limits**: Use beyond specified limits may cause damage; Manufacturer is not liable for misuse.
 - **Inquiries**: Contact us for any non-standard application.

POM VALVES

Single Check Valves

NON-RETURN VALVE

Technical information

Structural Diagram

Applications

- This Valve allows one way fluid flow and blocks the reverse flow

Features

- Compact size and convenient to use in a narrow space
- Cracking Pressure 0.02 ~ 0.04 bar
- Quick Installation and easy maintenance

Specifications

- **Material** : POM, SUS301, EPDM, NBR, VMQ
- **Temperature Range** : 1 °C~ 65 °C
- **Operating Pressure** : Refer to the table below
- **Applicable Fluids** : Water, Food & Beverage

Φ	°C	1°C	25°C	65°C
4mm ~ 12mm (5/32" ~ 1/2")		10 Bar	10 Bar	7 Bar

FILTER STRAINERS

Technical information

Structural Diagram

Applications

- It is stainless steel filter mesh (applied to 100 mesh or 200 mesh) and it filters out fine impurities

Features

- The screw typed cap of the filter has an easy installation and maintenance

Specifications

- Material** : POM, SUS301, EPDM
- Temperature Range** : 1 °C~ 65 °C
- Operating Pressure** : Refer to the table below
- Applicable Fluids** : Water, Food & Beverage

STEELFIT

Technical information

Structural Diagram

Applications

- This product is used for stainless steel and other similar plated pipe & tube

Features

- Two O-rings provide more sealing effect at high temperature
- The nut & holder provides a stronger grip when connecting the pipe, and O-ring effectively seals the fitting

Specifications

- **Material** : POM, SUS301, EPDM
- **Temperature Range** : 1 °C~ 65 °C
- **Operating Pressure** : Refer to the table below
- **Applicable Fluids** : Water, Food & Beverage

CARTRIDGES

Technical information

How to assemble the cartridge

Applications

- Designed effectively for easy installation and time saving
- Offers more cost-effectiveness compared to fittings

Features

- Cartridges are used with in acetal and brass
- The cartridge made of EPDM O-ring and acetal collet (Sleeve)

Specifications

- **Material** : POM, SUS301, EPDM(Brass)
- **Temperature Range** : 1 °C~ 65 °C
- **Operating Pressure** : Refer to the table on the left
- **Applicable Fluids** : Water, Food & Beverage

Fluidfit

PP Series

Polypropylene

Valves

PP VALVES

Ball VALVES

Technical information

Structural Diagram

Applications

- More chemically resistant than acetal
- Used in water supply feed line, Beverage dispenser

Features

- Enhanced Chemically Resistant

Specifications

- **Material** : PP(Polypropylene), POM, SUS301, EPDM Seal
- **Temperature Range** : 1 °C~ 60 °C
- **Operating Pressure** : Refer to the table below
- **Applicable Fluids** : Water, Food & Beverage

Φ	°C	1°C	20°C	60°C
4mm ~ 12mm (5/32" ~ 1/2")		10 Bar	10 Bar	4 Bar

Fluidfit

PPSU Series

Polyphenylsulfone

Fittings

PPSU Fittings

Technical information

Structural Diagram

Applications

- Ideal for high-temp/high-pressure fluid lines. Perfectly suited for hygienic applications across Food & Beverage, Medical, Semiconductor, and Lab Equipment

Features

- Stable at up to 140°C. Features superior chemical/ moisture resistance and perfect sealing via easy, one-touch assembly

Color Codes

WT White

Specifications

- **Material** : PPSU(Polyphenylsulfone), FKM Seal, SUS316L
- **Temperature Range** : -20°C~140°C
- **Operating Pressure** : Refer to the table below
- **Applicable Fluids** : Hot water, Coffee, Steam

Φ \ °C	-20°C	20°C	100°C	140°C
4	20 Bar	20 Bar	16 Bar	10 Bar
6	20 Bar	20 Bar	16 Bar	10 Bar
8	16 Bar	16 Bar	12 Bar	6 Bar

* Operating pressure may vary depending on tube size and temperature.

Polyethylene

Tubes

PE TUBE

Technical information

- Applications**
 - Water purification, water conditioners, ice makers, misting systems and food contact application
- Features**
 - A wide range of temperature and pressure suitability
 - Broad chemical compatibility
 - PE tubing is made from FDA compliant and non contaminating materials
- Specifications**
 - Tube Tolerance** : +0.1mm/-0.1mm
 - Temperature Range** : -20°F(-29°C) ~ +150°F(66°C)

SUS316L

316L Stainless Steel

Technical information

Structural Diagram

Applications

- F&B Plant Internal Piping
- Pharmaceutical & Bio F&B Processes
- High-Temp & High-Pressure Drinking Water Lines
- CIP / SIP Integrated Sections

Features

- High Temperature & Pressure Resistance
- Ultimate Corrosion Resistance
- Superior Mechanical Strength

Specifications

- **Material** : SUS316L, FKM
- **Temperature Range** : -15~220°C
- **Operating Pressure** : -0.95bar ~ 15bar
- **Applicable Fluids** : Air, Water, Vacuum
